

APPROVED BATTERY OPTIONS STATEMENT

GOODWE
YOUR SOLAR ENGINE

This statement covers all the GoodWe energy storage products, including ES, EM, BP, SBP, EH, BH, BT and ET series. Please find details below.

Only the batteries listed below are approved for connection to GoodWe. Please find the specific models in the following table, which are subject to change without notice.

| Brand | Model | Series | | | | | | | |
|--------|-----------------|--------|----|----|-----|----|----|----|----|
| | | ES | EM | BP | SBP | ET | BT | EH | BH |
| BYD | Battery-Box Pro | ● | ● | ● | ● | | | | |
| | Battery-Box Res | ● | ● | ● | ● | | | | |
| | Battery-Box LV | ● | ● | ● | ● | | | | |
| | Battery-Box HV | | | | | ● | ● | ● | ● |
| LG | RESU | ● | ● | ● | ● | | | | |
| PYLON | US2000 | ● | ● | ● | ● | | | | |
| | US3000 | ● | ● | | ● | | | | |
| | POWERCUBE-H1-48 | | | | | ● | ● | ● | ● |
| ALPHA | SMILE-5 | ● | ● | ● | ● | | | | |
| DYNESS | B4850 | ● | ● | ● | ● | | | | |
| | POWERBOX F | ● | ● | ● | ● | | | | |
| GCL | E-KwBe | ● | ● | ● | ● | | | | |

Note: 1. GoodWe may not provide technical support for installations where non-approved batteries are installed.

2. Only PYLON is approved for connection to the old BP model whose SN starts with "3".

Although GoodWe products ES, EM, BP and SBP series are technically compatible and capable of achieving good results with lead-acid batteries, Lithium-ion batteries with direct communication to the charging device are the preferred battery choice. If our customer wants to use Lead-acid or other similar types of batteries, it requires experienced and precise design, installation and maintenance to keep the battery working functionally. If any of these factors are inadequate, it may lead to battery failure, compatibility issue or other damages of solar system. Thus, customers must contact GoodWe for technical consulting and get official confirmation prior to installing any battery which is out of our official published compatibility list, including but not limited to the lead-acid battery. Failing to follow this instruction or provide the right information of battery, GoodWe's warranty shall be null and void, and Goodwe shall NOT be liable for any consequences arising from the unqualified installations. Goodwe reserves the right of final interpretation.
